### Document Body

Hello, Michel:

As I mentioned in a previous message, I am drafting USEPA's approval of the Pechiney risk-based PCB cleanup application. The land use zoning for the site is industrial / commercial. To ensure consistency with certain risk based decisions that DTSC may be making for the Pechiney site, please confirm what is DTSC's point of departure for risk based evaluations of sites that may remain industrial / commercial? Is it 10E-6 or 10E-5? Please confirm.

Thank you for your courtesies. Looking forward to your reply.

Regards,  
Carmen
